MEXICO - LOCAL TIP

Mexico is a fantastic country that has an amazing variety of nature, wildlife, ecosystems, local indigenous groups and amazing food. We have a great team to assist you and your clients and create friendships with all our visitors. People that visit Mexico usually fall in love with both the people and country.

EcoColors runs many amazing trips all over Mexico, probably the best 2 trips we run are the Monarch butterfly trip where we can see millions of Monarchs that have migrated thousands of kilometres to come to Mexico.

Another great trip is our whale shark itinerary with the breath-taking chance to swim with the biggest fish in the world.

My team will create an amazing Mexico itinerary for you, Simply contact me via Ollami.
